

S/S "HIGUEROTE" No.400 in R.B. 80 tons 1890-5mo.

Carenero Railway & Nav. Co. (Lim.) 90A1 9,91.
La Guayra.

+ Emb. 5,90.

S.S.No.1 due May, 1894.

This case was before the Committee at the beginning of August and the Owners were asked to arrange with the Surveyor at Demerara for the survey to take place without further delay. Since that time a Surveyor has been appointed at Barbadoes, and the Receiver and Manager of the Company was informed accordingly. He asks that Captain Fox may call upon him before leaving for Barbadoes. He adds that he has just learnt that the vessel arrived at Martinique on the 13th ultimo and that certain repairs are necessary, which will occupy some little time. If Captain Fox can carry out the inspection at that port the Manager may be able to arrange for him to inspect the vessel before she leaves Martinique.

It is submitted Capt Fox be instructed to call on the manager in regard to this case.
