S.

25th March, 1896.

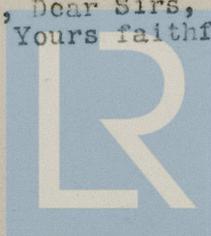

Dear Sirs,

With reference to the classification in this Society's Register Book of your steamer "SARGASSO", I beg to remind you that in order to complete the Special Survey No.3 which became due on this vessel in May last and was partly held at this port in December, the frames and plating above the bilge stringers on each side in the fore and after heads require to be examined, the close ceiling at these parts removed and the after peak tanks tested; and I shall feel obliged if you will kindly let me know when and at what port it will best suit your convenience to have these matters attended to, in view of the fact that the year of grace allowed by the Rules for the completion of the Special Survey will expire at the end of May next.

At the same time I think it well to point out that the three months limit which was placed on the Donkey Boiler of this vessel in December last will expire at the end of the present month.

I am, Dear Sirs,
Yours faithfully,

Messrs. Scrutton, Sons & Co.
9, Gracechurch Street,
E.C.
