

S/S "SARGASSO" No.300 in R.B. 927 tons 1883-5mo.

Scrutton, Sons & Co.  
London. 100A1  
3,95.  
S.S.No.2-92.

*B.L. 3,95 + d.m.b. 12,91.*

S.S.No.3 due May, 1895.

In June last the Owners stated that the vessel was then in the West Indies, and that on her return to London about the end of August the survey would be held. They now write that the vessel did not require to dry dock while she was in London, and they have therefore postponed arrangements for the S.S.No.3 until her next return to this country about November. They add that the vessel being only a single bottom without ballast tanks the survey is very simple. Little progress with the survey, however, can be made until she dry docks.
