U.S. Hon  
17. 10. 95

H.

28th August, 1895.

Dear Sir,

With reference to your call at this Office respecting the completion of the Special Survey No.2 of the Steamer "AMARAPOORA", I am directed to acquaint you that to complete the survey of the Machinery the donkey boiler, the main & donkey boiler safety valves, the cylinders, pistons, slide valves, the condenser, sea and bilge connections, the thrust, tunnel & propeller shafts and the propeller require to be examined and all the safety valves to be adjusted under steam.

No portion of the survey of the hull appears to have been yet carried out.

I shall be glad to learn as soon as possible when the survey will be completed.

The foregoing information is given on the understanding that you are the Master of the Ship, and that you are acting on behalf of the Owner.

I am, Dear Sir,

Yours faithfully,

Capt. Cameron,  
26, Margery Park Road,  
Forest Gate, E.

Secretary.
