ENGLAND.

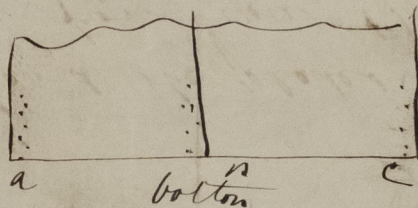

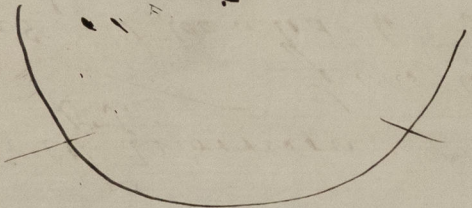

over

Mr W Morrison  
Sir,

Yours to hand the plates are not yet  
here, I wanted to hear from you & I have refrained  
from ordering the tubes - The stay tubes in this  
are very heavy cannot come be taken out, I can  
see other Boilers being passed much lighter on  
this point Your Contract word of it hits me hard -  
Your private opinion will be esteemed as I only  
want to comply with the rules no more Your instructions  
have been noted LON731-0025 Yr. Affly A Dodman

would you like the bottom of Boiler Rivets  
a B.C. coat for  $\frac{1}{3}$  way up.

I think this would be better to stop Corrosion

Yrs Sfully  
for A Rodman  
Art Cncl
