

Extract from a letter received from ~~the~~ Mr. Th. Rodenacker dated 25th. November 1898.

As regards the "AGNES", I think a ~~great~~ ^{long} part of the Special Survey No.3 was held in London in ~~January to~~ ^{May} March 1897 when she received two new boilers and her engines were overhauled, and extensive repairs were effected. Will you please say what is required to complete the Special Survey No.3.
