4th January, 1898.

Gentlemen,

With reference to the plans of the water tube boiler to be built by you for the S.S. "BUTESHIRE", I am directed to acquaint you that the boiler in question will be approved for the intended working pressure of 160 lb. per square inch, subject to its being submitted for survey every voyage.

I am, Gentlemen,

Your obedient Servant,

Messrs. Clarke, Chapman & Co. Lim.,

G A T E S H E A D.
