Dear Mr. de Coster

I arrived here safely on the 30th yesterday morning, & leave for my holidays tonight. I have just received a letter from the Committee asking me to add the sum of 11/6^d to my account for the Survey of the R.S. "Elena" & in consequence enclose a new account which cancels the one sent you yesterday. Mr. Schieffelin sent you on Thursday a list of thicknesses of the scuttlings for the above ship, please note it; & if I were you I should send a sketch of the thicknesses you have measured from the ship up to London & let the Committee decide at once if any compensation is required for wear & tear in the shell plating. With kindest regards, believe me

Yours truly
Minnie Peterson
