

Received by Chief Surveyor 8 JUN. 1896

Received from Chief Surveyor _____

VESSEL'S NAME St. L. S. "Isle of May" Report Lth No. 8147

The remarks of the Chief Surveyor are desired on this Case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey First entry

It is submitted that before this case receives the consideration of the Committee the Surveyor should be requested to state whether the Owner's consent to the equipment supplied to this vessel has been obtained, in accordance with the letter addressed to the builders on the 4th instant, a copy of which was forwarded him for his information and guidance on that date. If such consent has been obtained he should have stated this on his report, otherwise he was not in order in recommending the figure 1.
