

Last Survey, No. Port

Particulars of Survey, when held, must be reported in detail and verified in the terms of the Rules. State clearly the nature of the survey, if any, and, in detail, the nature and extent of examinations and subsequent repairs. Specify on account of damage (the nature of which must be stated) should be repaired from repairs due to other causes, and details being detailed in the body of the report should be distinguished in the form shown below. If repairs are required of a nature, character, or quantity, the particulars of weight or size and cost of the material should be clearly stated, and also the weight or size, as required by the Rules, together with the number of material used, if any. State also the date and initials of any letters regarding this case.

WIRE, OR EXAMINATION OF THE RULE, FOR

Leich,
19th Sept.,

Messrs. John Leach & Co.,

Leich..

Gentlemen,

having just received the afternoon issue of your J. L. 32 & finding that the crown is badly looking in way of frames I have to intimate, that its condition does not meet the requirements of the Rules, and will therefore not be passed by me..

I think you should carry out my repeated recommendation of testing in cast iron chocks between the frames, or cut the frames & connect some with brackets to hold by.

Kindly state what you propose to do, that I may advise the Committee accordingly, in case the work is not satisfactory elsewhere; please also note that the pump & chain rollers have got the use by me at work, as previously intimated to your draftsmen on board the vessel..

I am, Gentlemen,
