The engines & boiler of this vessel have been constructed under special survey, the materials & workmanship are found & good. The engines have been tried & the boiler safety valves adjusted under steam at the working pressure. The machinery is now in good & safe working condition & eligible in my opinion to have the notation of **+LMC 7,97**. The boiler tracing is retained for reference in dealing with the case of the boiler for the sister vessel.

It is submitted that
 this vessel is eligible for
