The Secretary of Lloyd's Register

Sir

In reply to your telegram  
this day I beg to state I was at  
Llifford, and did not return until  
20; First survey on Smack "Robert  
Adden" April 28, May 6, 9. 16 June  
9. 16, and consider for a small  
vessel quite equal to special survey  
I think most of the frame was  
converted out of what was left  
from the "Prince of Wales, and  
should say well seasoned.

I am

Sir

Your Obedient Servant

W. George
