(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors or Chains is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, &c., required by the Rules, together with the vessel's Equipment Letter, if any. State also the dates and initials of any letters respecting this case.)

REPAIRS, OR EXAMINATION AS PER RULE, FOR Damage

This vessel while being towed from Castle Pill to Milford Dock, struck the Pierhead while entering and sustained the following damage to starboard bow

On examination on the 9th Dec found she had taken the pier fair on the collision bulkhead storing in the frame and buckling the plate next shell and two of the bulkhead stiffeners also store in one frame each side of bulkhead and severely scoured one of the shell plates

Repairs done Two of the shell plates were removed and part of the bulkhead frame angles the butts being cut at different shiftings part of the wood deck lifted the bulkhead plate next shell removed the frame forward of the bulkhead heated and drawn out to place the one abaft had to be cut to allow it to come out to place the frame angle being cut about 3-6" above
