Timbering.—The Space between the Floor Timbers and Lower Foothooks is 2 3/4 Inches. The Space between the Top-Timbers is 4 5/8 Inches.

The Floors consist of English Oak.

The First Foothooks of English Oak

The Second Foothooks of English Oak.

The Third Foothooks and Top Timbers of English Oak

The Shifts of the First and Second Foothooks are not less than 5 1/2

N. B. When less than prescribed by the Rule, state how many.

The rest of the Shifts of the Frame are sufficient.

The Frame is well squared from the First Foothook Heads upwards, and well free from sap, and from thence downwards, the frame is well squared.

The alternate Frames are all bolted together to the Gunwale.

N. B. If not, state how bolted.

The Butts of the Timbers are close together; their thickness not less than 1 1/2 of the entire moulding at that place.

The Frame is chocked with a Butt at each end of the chock.

The Main piece of Rudder is English Oak

The Main Keelson is East India Teak, Side Keelsons of East India Teak and free from all defects. The Main piece of Windlass is English Oak

The Stem, and Stern Post, consist of English Oak.

The Transoms, Aprons, Knight Heads, and

Hawse Timbers of English Oak

Deadwood, of English Oak

and are free from all defects.

The Deck and Hold Beams consist of East India Teak

The Breasthooks of Eng. Oak & Iron

The Knees of Iron

Planking Outside.—From the Keel to the Height defined in Note to Table A { the Plank is American Rock Elm but no higher than as per Rule

From the above named Height to the Light Water Mark some Greenheart but mostly of Pitch Pine.

From the Light Water Mark to the Wales East India Teak

The Wales and Black-strakes are East India Teak

The Topsides East India Teak

The Sheer-strakes and Plank-sheers East India Teak.

The Water-ways { Upper Deck East India Teak & Eng. Oak at ends
Lower Deck East India Teak & Eng. Oak at ends

The Decks Yellow Pine fastened with Galvanized iron bolts.

State of them efficient (new)

The Shifts of the Planking are not less than five Feet — Inches. N. B. If less than prescribed by the Rule, state whether general or partial, and if partial, in what part of the Ship.

The Planking is wrought three between, and without step-butting.

Planking Inside.—The Limber-strakes and Bilge-strakes are East India Teak.

The Ceiling, Lower Hold, and between Decks East India Teak Shelf Pieces and Clamps East India Teak.

Fastenings.—To Hold Beams An iron hanging knee to each beam, with shelf & waterways as reqd by Rule Iron hanging knees in wake of masts, some of English oak at ends and all well bolted and secured.

Deck Beams thirty six pairs of iron hanging knees. Shelf pieces and waterway. Iron hanging knees in wake of each mast, and all well bolted and secured.

Number of Breasthooks four of iron Pointers Compensated full timber stars Crutches four of iron.

Butts End Bolts are of Yellow Metal in the Bottom, and a through Bolt in each Butt End through and clenched.

Bilge and Limber Strakes are bolted through and clenched. Treenails of Locust wood How Made Eng. turned.

Side Keelsons are all bolted through and clenched. General Quality of Workmanship Good (Superior)

We certify that the above is a correct description of the several particulars therein given

Her Masts, Yards, &c. are in good condition, and sufficient in size and length.

She has SAILS.		CABLES, &c.		ANCHORS, and their ts.	
Nº.			Fathoms.	Inches.	Weight.
