

Newcastle on Tyne
Sep 22. 1864

Thos. Lake Esq
Hobbs

Sir

In reply to your favor
informing us that until the
Public Testing Machine is ready
all Chains must be tested under
the inspection of Mr. Burnell.
we beg to inform you that in
the case of the "Horn Bell"
it is quite impracticable as
the vessel is load and ready
for sea. we may say that
the Chains have been made
some months and were tested

during the time allowed the
makers at their own machine
but the vessel was delayed
longer than was intended

We therefore trust you will
under the circumstances recom-
mend the Committee to give us
the price for stores.

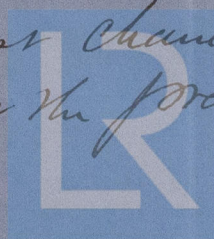

We Remain

Yours Respectfully

G. C. Haschenring

P.S. We understand Mr. Burrell
has so much work before him
that there would not be the
slightest chance of his attending
to us at the present time.

G. C. H. Jr.
