

Office Register Tonnage, as a Steamer, cut on the Beam
Feet. Inches. Feet. Inches.

Wood Ship "Astoria" 1386 Tons.
built at Bath U.S.A. in 1875, and now
surveyed for classification.

The materials in the construction of this
vessel are generally of the 9 years grade excepting
the frame - part of which is 7 years material.

Under these circumstances it is submitted
this vessel appears eligible to be classed
9 A1 with a notation "Frame pt. 7 yrs. mat" in
the Register Book.

The vessel has now been specially surveyed
for Continuation Survey No. 2, and has been Salted.
and she appears worthy to be continued A1 for 6 years
being $\frac{2}{3}$ of 9 years, and an additional year for
Salt, making a Continuation of 7 years from Sept. 1884:
and at the end of this term to lapse to the A1 in Red
character for a period of 7 years from Dec. 1887.
on the vessel being subjected to Half Time Survey
on the expiration of the Continuation in 1891.
