

S. S. Monarch

Submitted before dealing with  
this case the Surveyors be re-  
-quested to furnish the present  
diameters of the Cylinders. They should  
also be referred to the Secretary's letter  
of the 28<sup>th</sup> Nov. 1999 in which the main  
boiler was approved of for a work-  
-ing pressure of 90 lbs per sq: inch;  
and if the diameters of the Cylinders  
are as stated in their letter, the  
safety valves will require to be adjust-  
-ed to <sup>not more than</sup> 90 lbs per sq: inch, as allowed  
by the rules.

Letter 28/7/00.
