Received from Chief Ship Surveyor

VESSEL'S NAME

Iron S. S. "Eider"

Report

Nwc

No.

41616

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

Improved Class.

It is submitted that before this case receives the consideration of the Committee, the Newcastle Surveyors should be reminded that the submission of this vessel <sup>to the Committee</sup> for improved class is being delayed owing to weight of stream anchor & particulars of test (if weight exceeding 168 lbs. ea stock), not having been officially reported, and certificate of steel stream wire not yet having been produced.
