

Staffordshire Public Chain and Anchor Testing Company, Limited.

Barby Hill 14<sup>th</sup> January 1892

George. B. Saffery Esq. Mayor P.S. Lord  
Sir.

In reply to your favor of 17<sup>th</sup> inst relating to  
Certificate of test for 30 fms.  $1\frac{3}{8}$  in Chain there must be an  
error in the No given as the Certificates at either the Tipton  
or Metheron Proving Machines do not reach so high as 14125  
and I cannot find any number at all likely to apply to a Chain  
tested about the time the undernamed were proved

65310 for 120 fms.  $1\frac{3}{8}$  in Stud  
6538 for 120 fms  $1\frac{3}{8}$  in Stud

Yours Sir

Your Obedient Servant
