

Office of Lloyd's Register of Shipping
Penzance. 30th Decr 1864

Geo: B. Saffery Esq London

Sir, I beg to apologise for the omission of the measurement of the "Eggs Brain" in my report, I had placed it in the report I copied it from, but in filling up the report I sent, I had overlooked that part, but now beg to forward it as under viz:

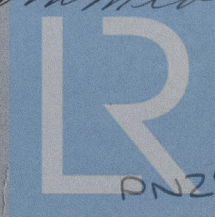

Length 107 ft Breadth 24 ft Depth 12.5 in
also to inform you I will send you a drawing of a section of the vessel showing the extra strength placed in this vessel on Monday, for the Committee's guidance and approbation trusting it will be satisfactory to them for classing her as recommended

And remain

Sir your mo. ob. Serv^t

W. K. Mathews

I find that Messrs Harvey & Co have sent you a guarantee that both Chairs and anchors shall be tested at a Public Machine immediately on her return this voyage
