

Foundry.

Hayle 1 Dec 1833

J. B. Saffery Esq
 2 White Lion Court
 Cornhill London
 EC

Sir We have received your favour of the
 20th inst. & its enclosure, — We had no
 knowledge of their existence, — and had your
 note informed us of this, we should
 have been spared much trouble and anxiety &
 the owners have chartered the vessel —
 since writing we learn that duly tested
 cases have been shipped to Bristol & we
 look to their being here today — We do not
 hear of any further open spirit and hope
 to hear no more from the ship but
 your character — if however there be any

technical reference point, still open
as have desired our friend Prof. J. V.
Bolton to undertake for us, any personal
expenditure; so that no delay to the Report
may take place. —

We would beg to observe that the most
stringent the regulations respecting the
quality of chains; the means with their
requirements; be to what we have already
attempted — our only dissatisfaction was that
the hitherto progress was only slighted to; after
the Report was ready to deliver & had been
chantered. — we felt however that this, we
be rectified without any unnecessary delay
we are obliged by your attention, and
Yours truly
J. J. Harwood
