

20516 Report from Quebec (Tth Enty) on Baque
Tyrol 547 Tons built at Quebec under S.S. 7A
pt 1B

Oct 10/70

Application now made to Committee by Owners
Letter Oct 15/70 to raise Vessels Class one year.
By 5th Enty Report, and recent revision of Table A
the Timber materials are eligible for D except
part of Apron, and the Deadwood, these being
of North American Oak, are required to be
salted for that grade, as stated in Foot Note
of Table A, of which salting there is no mention
made in Reports, but Mr. Bowden Report mentions
Bolts slightly corroded from being in contact with the
Salt between Timbers of the Frame. J.M. Oct 10/70
