

Barque Tyrol 547 Tons

With the further information now given by
M^r Bonden it appears fair to consider
that the Apron, and the Deadwood of this
Barque are sufficiently salted, which, with
her other qualifications, as regards Species
of Timber, may be considered by the
Committee as eligible to be raised from
Y to D Yth Class in accordance with Table
A recently revised

A large, stylized signature in dark ink, likely belonging to J. M. Bonden, is written over a large blue 'R' watermark.
