

Dutch Ship "Westerschelde" late
"California" 1197 Tons built at
Boston in 1864 - lately classed
Rest'd A - for 4 years.

It is now stated that the gross
Tonnage of this vessel less the crew
space is 1197 Tons, this causes the
equipment to be generally in excess
of the rules, the third bower anchor
however is 23 cwt instead of 25½ cwt
but the best bowers are 37 cwt and
35 cwt respectively, instead of 30 cwt,
it is respectfully submitted that
the vessel is worthy of the favorable
consideration of the Committee for
the Figure 1 as recommended.
