

SURVEYOR OFFICE ROTTERDAM,

31 July

1884.

The Secretary

Lloyds Register Office
London E.C.

Dear Sir!

As soon as I received your letter yesterday, and saw your request about the approved drawing of the s.s. "Rosaline" I went to Flushing last night and show the letter to the Engineer of Shipbuilding of the Royal Shipbuilding and Engineering Co. "de Scheldt".

For you know, they always make objection in Holland to give them. So that I am very glad that you have done so. —

About the side stringer I have forgotten it to put it in my report, because there is no line for, on the first page of the report, but I have put it in on the report now.

Saturday they will do the Trial trip with the "Rosaline". and the s.s. Moorcock it sister ship N°42. will be launched then. Therefore when you will send the Certificates to me. Now to me. Please send them then to the address. Mr. J. C. W. Loos. — Co. "de Scheldt" at Flushing. Because Saturday next. I shall be there when the s.s. Moorcock launched.

And then I can give the Certificates to Mr. Jos. van Nante the Manager, when he is back from

his voyage or to Mr. Arie Smit. so that
settle accounts with the Owners.

I am dear Sir!

Your obedient servant

J. W. Smit.
