J. Meyer Esq, Shipbuilder at Zalt Bommel (Hol
land) issue this report to the effect that the Steel Screw-
Steamer designated "No' 104" has been built at his yard un-
der Special Survey, and that the vessel will be recommended
for the Special 100 A I class when transmitting our re-
ports to Lloyd's Register Office, London, under the condition
that the casing above boiler space be riveted up and satisfac-
tory reported upon by one of the Society's Surveyors after
the Machinery and Boiler has been placed on board.
