**Timbering.**—The Space between the Floor Timbers and Lower Foothooks is 2*6**3* Inches. The Space between the Top-Timbers is 3*6**6* Inches.

The Floors consist of German Oak The First Foothooks of German Eng. Oak (see p<sup>g</sup> Rule).

The Second Foothooks of Eng. Oak 1*2* The Third Foothooks and Top Timbers of Eng. Oak except 12 ft French oak

The Shifts of the First and Second Foothooks are not less than *4*/*4* of breadth N.B. When less than prescribed by the Rule, state how many.

The rest of the Shifts of the Frame are not less.

The Frame is fairly squared from the First Foothook Heads upwards, and fairly free from sap, and from thence downwards, the frame is fairly squared

The Frames are all bolted together to the Gunwale. from the floors up N.B. If not, state how bolted.

The Butts of the Timbers are all close together; their thickness not less than *1*/*2* to *1*/*2* of the entire moulding at that place.

The Frame is chocked with part Butt at each end of the chock. The Main piece of Rudder is Spanish of Windlass is Eng. Oak

The Keel is Amer. & Eng. Elm The Main Keelson is Green heart, Riddle oak and free from all defects.

The Stem, and Stern Post of English Oak The Transoms, Knight Heads, Hawse Timbers,

and Aprons of Eng. oak except one side of Span. Deadwood, of Green heart & Eng. Oak from 2 feet up below of stem and are iapp free from all defects.

The Deck and Hold Beams of Eng. & Spanish oak & Greenheart The Breasthooks of iron The Knees of iron

**Planking Outside.**—From the Keel to the Height defined in Note to Table A the Plank is American Elm & Pitch Pine

or to the First Foothook Heads

From the above named Height to the Light Water Mark Pitch Pine

From the Light Water Mark to the Wales Pitch Pine

The Wales and Black-strokes are Pitch Pine & Waxed Green The Topsides & Sheer-strokes Pitch Pine & Strakes of Green heart

The Spirketting and Plank-sheers German Oak The Water-ways Upper Deck Pitch Pine

The Decks Yellow Pine Lower Deck Pitch Pine

The State of Good

The Shifts of the Planking are not less than 5 Feet Inches. N.B. If less than prescribed by the Rule, state whether general

or partial, and if partial, in what part of the Ship. The Planking is wrought three between, and without step-butting

Planking Inside.—The Limber-strokes and Bilge-strokes are German Oak & Pitch Pine

The Ceiling, Lower Hold, and between Decks Pitch Pine & German Oak Shelf Pieces and Clamps Pitch Pine

Fastenings.—To Hold Beams, iron locking knees 11 pair of older hanging knees extending down over the bilges, and 15 pair of hanging knees

Deck Beams iron locking knees, and 15 pair of hanging knees

Number of Breasthooks Six Pointers Books and Crutches Five

Butt End Bolts are of Yellow Metal in the Bottom: Two Bolts in each Butt End One through and clenched.

Bilge and Limber Strakes are bolted through and clenched. Treenails of Eng. Oak How Made Circular

Thickstuff over Double Floors bolted through and clenched. General Quality of Workmanship Good

We certify that the above is a correct description of the several particulars therein given
