

Iron S.S. "Fishery Hoezard" built in
1857 and classed A.1. in black ironing deck
subject to annual survey in Liverpool Registry.

It is submitted the Owner be informed
that a ~~via~~ telegram has been sent him
to day as follows. "Committee cannot accede
to his request". In view of the age of
this vessel and the original scantlings,
it is thought that considerable renewal
of parts would have to be effected to
render the vessel eligible for a class
in the Register book of this Society. Under
these circumstances the Committee are
unable to send any enclosure in support to
hold this survey, but should the
vessel arrive in this Country where such
survey could be held the Committee
would be prepared to sanction the same
