

H.

9th September 1891.

Dear Sir,

With reference to the
classification in this Society's
Register Book of the Steam
Tug Darry. I beg to remind
you that the inspection of
the Boiler, commenced at
this port in January last,
has not yet been completed,
and I shall therefore be glad
to learn at what port the
matter will be attended to.

I have to add that the
completion of the survey in question
is so long overdue that the case
should be closed at the earliest
possible date.

Yours faithfully,
W. W. Weyburn
