S.

26th. July, 1893.

Dear Sirs,

With reference to the case of the small steel steamer known as No. 90 built to your order by Mr. J. Mulder at Vierverlaten, I have to acquaint you that the Committee have recently had before them reports from the Society's Sunderland Surveyors on the engines and boilers of this vessel, and that they have accordingly assigned to her the class 00 A 1 with notation of L.M.C. 7, 93.

If you will be good enough to return to me the provisional certificate which was issued by the Committee in April last, I shall have the pleasure of exchanging it for a complete certificate of class 00 A 1 if preferred this can be delayed until the vessel has been named.

I am, Dear Sirs,

Yours faithfully,

Messrs Pile & Co.,

34, Great St. Helens,

E.C.

Secretary,
