

Stut Screw Steamer No. 90. built at Viersvelaten  
by J. Mulder. Veendam Report 178.

This Vessel was built at Viersvelaten, and  
she has now been fitted with her machinery  
at Sunderland, and the openings over the engines  
and boilers are reported to have been efficiently  
covered.

The case was before the Classing Committee  
on the 14<sup>th</sup> April when the Vessel was classed  
100 A, and it was decided to grant a Certificate  
accordingly but to withhold the record of same  
from the Register Book as provided for in the Rules.  
Section 39, par. 10. See endorsement 29.3.93.

It is submitted that the Vessel is now eligible  
to be classed 100 A1 ('Stut') and to have notation  
of same made in the Register Book with record  
of survey 7.93.

100 A1 ('Stut') 7.93  
1 BR. (pt Stt.) 'well built'  
W. B. = F.P.T. 16t.
