1 plan

Reference

The Secretary,
LONDON.

Dear Sir,

Nos. 1016 & 1017.

In checking the scantlings and arrangements in the above vessels, it was noted that the beams on the fore-castle deck were on alternate frames. From the approved deck plan it would appear that the scantlings were approved for beams on every frame. The Builders' attention was called to this and various suggestions made which the Builders could not see their way to adopt.

The plan of fore-castle deck is now re-submitted for the consideration of the Committee. In dealing with the plan it should be pointed out that the beams as shown are now in the ship. The Builders' letter is also enclosed.

We are, Dear Sir,

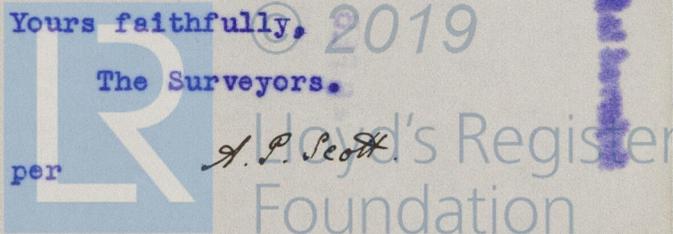

Yours faithfully,

The Surveyors.

The Secretary,
LONDON.

Dear Sir,

Messrs. J. & J. J. J.

In checking the scantlings and arrangements in the above vessels, it was noted that the beams on the forecastle deck were on alternate frames. From the approved deck plan it would appear that the scantlings were approved for beams on every frame. The Builders' attention was called to this and various suggestions made which the Builders could not see their way to adopt.

The plan of forecastle deck is now re-submitted for the consideration of the Committee. In dealing with the plan it should be pointed out that the beams as shown are now in the ship. The Builders' letter is also enclosed.

We are, Dear Sir,

Yours faithfully,
The Surveyors
