Dear Sir,

Blue Star Line

With reference to the engines being built by the Brush Electrical Engineering Co. Ltd., for the above contract, we have today received from this firm a letter, a copy of which is enclosed.

We have been in communication with The Rotherham Forge & Rolling Mills Co. from whom the crankshafts have been ordered and they state that the earliest deliver they can give is the first shaft in eight week's time.

We shall be glad to receive your instructions.

We are, Dear Sir,

Yours faithfully,

for the Surveyors,

H. B. Miller

The Secretary,
LONDON
