Reference

Dear Sir,

Blue Star Line  
Harland & Wolff's Nos.1016/7

With reference to the engines being built by the Brush Electrical Engineering Co. Ltd., for the above vessels, the request form has not yet been filled in by the engine makers and upon enquiry they stated that this had been held up in view of the fact that there was some uncertainty as to whether four or six engines were to be made. They now ask us to quote for six engines.

The last fee to be charged for similar work was £50..0..0 and we respectfully suggest that a like amount, with the usual proviso, be charged in this instance.

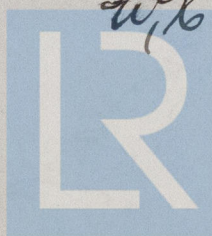

We should be glad to hear from you.

We are, Dear Sir,

Yours faithfully,

for the Surveyors,

The Secretary,  
LONDON
