Lloyd's Register of Shipping.

Port *CALCUTTA*

20th December 1947

This is to Certify that

RICHARD SHAW

the undersigned Surveyor to this Society did at the request of Messrs. Mackinnon Mackenzie & Co., attended on board the Steel Screw Steamer "ELLENGA" 5196 tons gross register of Glasgow to ascertain her condition for being taken in tow to Bombay for breaking up purposes.

The vessel has loaded a part cargo of coal. Steam is available for pumping and fire services, steering gear, windlass and essential lighting.

She has been efficiently battened down and in my opinion is in fit condition to be taken in tow to Bombay.

Surveyor to Lloyd's Register
CALCUTTA.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
