Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

23rd June, 1920.

Dear Sirs,

With reference to Yokohama First Entry Report No. 2647 on the Steamer "TAIKAI MARU", I have to acquaint you that the chain cable certificate No. 27475 mentioned in your report was issued in respect of 240 fathoms of 2½" chain cable and not for 270 fathoms of cable as reported by you.

In these circumstances, I have to request that you will forward full particulars of the additional 30 fathoms of chain cable if this has been supplied to the vessel.

I may add that the classification certificates for this vessel were forwarded to you from this Office on the 18th June, and as it is not clear whether the equipment of the Steamer is in order, I thought it well to cable to you to-day as follows, which I now confirm, viz:-

"TAIKAI MARU YONEP (=retain certificates, letter follows)

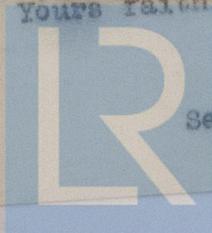

With regard thereto, I have to request that you will at once cable to this Office how the case stands, in order that amended certificates may be sent to you for issue if equipment of the vessel is not yet complete.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
YOKOHAMA.

Secretary.
