Dear Sirs,

I am advised by the Admiralty that the steam trawlers "ALIDA" and "MASONA" were handed over to you on the 9th ultimo for breaking up purposes.

In the circumstances the Committee of this Society will very much appreciate it if you will kindly let me know, in due course, where and when the work of demolition commences for purposes of the Return of vessels lost, broken up, etc., which is periodically compiled by this Society.

Yours faithfully,

pro Secretary.
