Dear Sirs,

With regard to the two large anchors for our No. 623, which should be $7\frac{1}{2}$ cwts. stockless and 7 cwts. stockless, we find the owners have ordered these $8\frac{1}{2}$ cwts. stockless and $6\frac{1}{2}$ cwts. stockless respectively, and as these anchors are now made it is impossible for the makers to correct the mistake. Under these circumstances we shall be glad to know if you will accept these anchors for this vessel, taking into account that the total weight is $\frac{1}{2}$ cwt. more than required by your tables.

Your early reply will oblige.

Yours faithfully,

FOR COCHRANE & SONS, LTD.,
