Lloyd's Register of Shipping.

Port FALMOUTH.

13th, September, 1945.

This is to Certify that

F.C.I. OWEN

undersigned Surveyor to this Society did at the request of

agents appointed by Messrs. Elder Dempster Lines Ltd., attend
and the twin screw motor yacht 'AARLA' on September, 13th, 1945
the purpose of extending an Interim Certificate which had been
issued at Oporto, Portugal, on September, 4th, 1945, on the
behalf of the vessel, in order that she may continue her voyage
safely to the River Clyde.

The main engines were examined running under working conditions,
lubricating oil pressures with and without the Stand-by
lubricating oil pump running were noted and all found to be
satisfactory. The main motors were also examined whilst being
reversed. The generators and steering gear were also examined
under working conditions.

The machinery of this vessel as far as can be ascertained under
working conditions and without opening up for a complete
overhaul, is efficient and the vessel is eligible in my opinion
to proceed on her voyage to the River Clyde which is her
destination.

F. C. I. Owen.

Surveyor to Lloyd's Register.

is issued upon the terms of the Rules and Regulations of the Society, which provide that :—
Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
understood that neither the Society nor any Member of any of its Committees is under any circumstances
responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
Book or other publication of the Society, or for any error of judgment, default or negligence of any of its
Members thereof, or the Surveyors, or other Officers or Agents of the Society."
