

Yacht "AAR V".

Mr. Ormiston, the Society's Principal Surveyor for Italy, telephoned from the Genoa Office this afternoon, to say that Major Cooper, a Director of the National Provincial Bank, had called at the Office regarding the yacht "AAR V", which he contemplates purchasing from the present Owner, Mr. E. M. Arenburg, of Hamburg.

Major Cooper is anxious to be furnished with the results of the drilling of the shell plating carried out at Genoa in January, 1933, on the occasion of the Second Special Survey No.3 for reclassification.

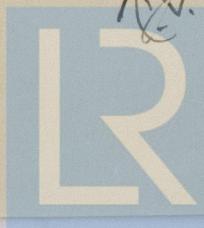

He adds that the Master, representing the Owner, has given him a letter of authority to furnish Major Cooper with any information regarding the yacht which he may desire, and Mr. Ormiston seeks authority to issue a copy of the drilling results.

R.S.

29th August, 1935.

From a subsequent telephone conversation with the Genoa Office it appears that Major Cooper has now been able to obtain all the information he desired from the ship's papers so that no further action is necessary.
