4th May, 1948.

Dear Sir,

We are in receipt of your letter of the 3rd instant regarding the Steamer "BASINGFORD" (London Report No.116399), and in reply we have to say that the boiler pressure had been reduced to 160 lb. owing to the previous condition of the tubes. These tubes have now been renewed and the safety valves were accordingly adjusted to the original pressure of 190 lb.

Yours faithfully,

THE SURVEYORS,

Per: *W. A. Rankin*
