Lloyd's Register of Shipping,

Imperial House,

Donegall Square East,

Belfast, 20th July, 1946.

The Secretary,  
LONDON.

Dear Sir,

MESSRS HARLAND & WOLFF'S No. 1354

We are forwarding herewith, plans (in triplicate) of midship section and framing profile for the above vessel.

The berth for the building of this vessel is vacant, and from conversation it appears that the Chairman has agreed with the Owners to lay the keel at an early date, and members of the drawing office staff were recalled from their holidays to draw out the plans now submitted.

*M. Harland*  
In the circumstances, the Builders request for early approval of the keel and centre girder might receive special attention.

The Builders letter is enclosed.

We are, Dear Sir,  
Yours faithfully,  
The Surveyors

Encl.
