Lloyd's Register of Shipping.

Port Halifax, Nova Scotia,

26th April, 1946.

This is to Certify that I have

Surveyed the Steel screw Steamer "HOPESTAR" of Newcastle, 5267 tons gross whilst afloat on account of damage stated sustained through encountering heavy weather between the 10th and 20th April, 1946, whilst on a voyage from the United Kingdom to Halifax, N. S., and that I have transmitted to the Committee of Lloyd's Register of Shipping, London, a Report, stating that all temporary repairs recommended by me have been completed to my satisfaction, and that I have Recommended that she be continued as classed in the Register Book subject to the deep tank not being used as a tank until permanent repairs have been effected at the first convenient opportunity, being fit to carry her cargoes in safety.

*A. Daintith*

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—  
"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
