

W1013-0137

Shipbuilders: Messrs.

Yard No.

Engineers: Messrs. *THE SUPERHEATER CO. LTD.*

Engine No.

S.S. "HOPESTAR" No 76047 IN REGISTER BOOK.

It is submitted that the undernoted plans of De-superheaters merit approval for a working pressure of 285 lb./ins² provided the desuperheaters be constructed under the usual conditions of survey and testing.

It is noted that it is proposed to use stock tubing for the manufacture of the coils and it is concluded that the material has been tested by the Society's Surveyors. If this is not the case, check tests should be carried out in the presence of the Surveyors.

It is also noted that plans of replace superheater elements will be forwarded to this office in due course.

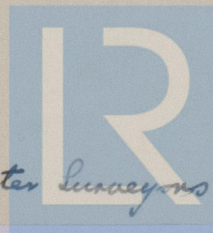

21/5

Return 2 plans.

Retain 2 copies

3rd, 11, 39 T.

Advise Manchester Surveyors with 2 copies of plans.
