Lloyds Register of Shipping,
71 Fenchurch Street,
LONDON, E.C.3.

15th May, 1941.

Dear Sirs,

S.S. "HOPESTAR". Desuperheaters.

We have received an order from the Wallsend Slipway and Engineering Co. Ltd., for desuperheater coils for fitting inside the two main boilers of the above Vessel.

These coils are similar to those we originally supplied when the Vessel was built in 1935, and will be made as shown on the following prints now enclosed in triplicate :-

- MN.12950 - Arrangement of Coils fitted in the Boiler.
- MB.14290 - Details of Coils.

The tubing for this order will be taken from our stock being made from solid hot drawn mild steel 1.3/4" o.d. x 8 w.g. and 2.1/4" o.d. x 0 w.g., having been made by one of our usual suppliers to our Specification X41, mechanical test and chemical analysis certificates being available at our Works.

We have also been instructed to supply replace combustion chamber superheater elements for this Vessel and hope to send you shortly drawings regarding same for your approval.

In the meantime, we should be obliged to have one of each of the enclosed prints stamped as approved and returned to us in due course.

Yours faithfully,
FOR THE SUPERHEATER COMPANY, LIMITED.
