Lloyd's Register of Shipping.

Port CAPE TOWN.

7th May, 1943.

This is to Certify that I have

Superheaters of Main

Surveyed the/ Boilers and Machinery of the Steel Screw Steamer
"HOPESTAR", 5,267 tons gross of Newcastle, on account of defects

in same

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have
Recommended that the ~~record of~~ Boilers remain as classed

~~be made~~ in the Register Book in the case of this vessel, subject
to stoppered tubes in port boiler being renewed at first
opportunity.

NOTE: All superheaters have now been removed, and vessel is
proceeding on saturated steam only.

(Signed) P. F. BALFOUR.

Engineer Surveyor to Lloyd's Register.

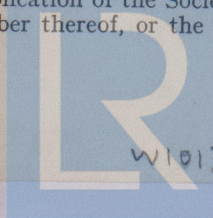

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that :—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are
perly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under
circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the
Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error
judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other
Officers or Agents of the Society."
