To the Surveyor(s) at NEWCASTLE.

Vessel's Name, S.S. "HOPESTAR".

QUESTION.

ANSWER.

With reference to your report No. 100429, I have to acquaint you that the Boiler Survey of this vessel was advanced at New York in June /July last and that to complete the same the Donkey Boiler and mountings (except safety valves) require to be examined and the safety valves of all boilers adjusted.

In the circumstances I shall be glad to learn what arrangements the Owners propose making for this matter to receive attention.

L.P.

Date:— 13th February, 1943.

The Owners state they expect this vessel in the U.K. about April, and they have instructed their Superintendent Engineers to have this matter dealt with on her arrival.

THE SURVEYORS,
