REPAIRS, OR EXAMINATION AS PER RULE, FOR —

Vessel was visited for purpose of extending freeboard certificate and of issuing interim certificate. See also Belfast Report 12905.

It has now been decided that vessel should proceed under her own power to a port in the United Kingdom for permanent repairs and an interim certificate (copy attached) has been issued subsequent to satisfactory temporary machinery repairs. Vessel is proceeding in ballast.

General Observations, Opinion as to Class, Recommendation, &c.:

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:— "to remain as classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1.38," or "to remain as classed and to have record of survey, 1.38, and the notations of ss No. 1-38."

This vessel is eligible in my opinion to remain as classed without fresh record of survey subject to efficient permanent repairs being effected on arrival at a port in the United Kingdom where she is now proceeding and to permanent repairs to port side shell plating and bulkhead between Nos. 1 + 2 holds at first convenient opportunity as previously recommended.
