BERKS.

Dear Sir,

s.s. "HOPESTAR".

From your notice dated 14th December, we observe that the general examination of this ship is due February next and that her Freeboard Certificate will expire on the 28th of that month.

We of course do not know where she will be in February but she will be in a home port in January and it might well be that the opportunity to undergo the above-mentioned surveys may occur then.

With that object in view, we are advising our Superintendents Messrs. Wilson & Burletson, to co-operate with your Surveyors at the home port where she will discharge in January as and when that is known.

Yours faithfully,
