

Copy of letter received from
BOARD OF TRADE SURVEYOR'S OFFICE
79 Mark Lane E.C.3

LONDON 27th. July 1927

Dear Sirs,

S.S. "OILVIGOR" of London.

For the information (Load Line Assignment) of Lloyds Registry, the following is sent to you which please hand on.
Registered dimensions of vessel.

L. 293.2 ft x B. 47.25 x D. 28.0. Under Deck
Tonnage 2991.26

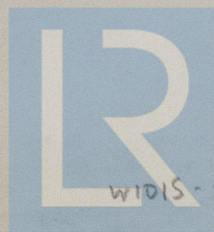

The vessel is measured in one part from Stem to Stern.
I think the former length 292.3 is incorrect as it is less than the length between perpendiculars.

Yours faithfully,

(s) J.W. Larcombe

SHIP SURVEYOR.
